### **DETAILED ACTION**

1. This communication is in response to Appellant's Appeal Brief dated June 6, 2010.

Claims 55-93 are pending in this application.

#### ***Allowable Subject Matter***

2. The following is a statement of reasons for the indication of allowable subject matter:

The prior art of record (Tarbox, US Patent 6,154,732) discloses a system and method for planning for, implementing and administering a retirement benefit program through a programmed computer including at least one guaranteed, life-dependent retirement benefit to provide a guaranteed lifetime income to at least one person using at least one or more personal financial assets owned by the person.

The second prior art of record (Ryan et al., US Patent 6,205,434 B1) discloses the use of a controller in a retirement planning and benefits management context.

The third prior art of record (Barron's Dictionary of Insurance Terms, 3<sup>rd</sup> Ed., Barron's Dictionary of Finance and Investment Terms, Fifth Ed., 1995) discloses conversion of investments, assets and contracts.

The fourth prior art of record (King, US Patent 5,704,045) discloses risk transfer and risk diversification.

The fifth prior art of record (Golden, US Patent 5,933,815) discloses guaranteed life-dependent financial contracts or instruments.

The sixth prior art of record (El-Kadi et al., US Patent 6,014,642) discloses the purchasing of fractions of investments, assets and contracts, including gradual purchases over time.

The seventh prior art of record (Schirripa, US Patent 6,275,807 B1) discloses recalculations as they apply to the advisor's service activities for the client.

The eighth prior art of record (Henderson et al., US PreGrant Publication 2001/0014873 A1) discloses financial and statistical information related to future market performance, inflation and interest rates

However, the combined prior art of record fails to teach a proper *prima facie* case of a method and system for "recalculating by use of said computing device and for each future interval of the allocation period a recalculated total current value and a recalculated target benefit payment value based on at least change information received from at least the remote client computer including at least one change to the retirement benefit program specified by the person" as claimed in independent claims 55, 78 and 80.

For this reason claims 55, 78 and 80 are deemed to be allowable over the prior art of record, and claims 56-77, 79 and 81-93 are allowed by dependency.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee, and to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled Comments on Statement of Reasons for allowance.
